Autogenous brazing rods Cat. No. GE5FAC

Reference: GE5FAC

Price: 66,04 € Excl. Tax 79,25 € Incl. Tax

Description

Brazing rods Cat. No. GE5FAC can be used without stripper!

Soldering is the assembly of two identical or different metal parts, using a brass-based filler metal whose fusion point must be lower than that of the 2 parts to be assembled.

Among the specific advantages of this reference GE5FAC is the fact that it can be used without stripper.

Our Ref. GE5FAC is sold in 5-kilo packs.

This reference GE5FAC is recommended for butt joints on steel pipes, for sanitary heating

and for work on mechanical parts.

This brazing alloy reference can be delivered to you within 72 hours of receipt of your payment.
