### **Coated brazing rods Cat. No. GE334EE**

**Reference:** GE334EE

**Price:** 50,61 € Excl. Tax 60,73 € Incl. Tax

#### **Description**

Blue coated brazing rods with 34% silver!

Coated brazing is done using a filler metal that takes the form of a rod coated with a pickling flux designed to protect the metal from oxidation.

The advantages of this technology include ease of use, excellent application for delicate and meticulous assemblies, and good mechanical strength.

More specifically, these brazing rods Cat. No. GE334EE are sold in packs of 3 rods - Ø 2 mm - L 500 mm.

This reference GE334EEE is particularly recommended for delicate brazing of homogeneous or heterogeneous assemblies, where its quick and easy application is a marvel!

It's ideal for professionals in the HVAC industry, as well as in the ventilation, automotive, electrical, household appliance and food equipment sectors.

This product is available for sale online and can be delivered within 72 hours of receipt of payment.
