Decap' Cuivre Cat. No. 851

Reference: 851

Price: 16,45 € Excl. Tax 19,74 € Incl. Tax

Description

Part of the Express range of roofing flux, this complete mineral flux Cat. No. 851 offers a very high level of wettability¹.

It is the ideal product for all roofing preparation work performed in workshops and on roofs (gutters, slopes or ridges). The working temperature for this product ranges from 228°C to 720°C.

As with all Express products, you will find this flux Cat. No. 851 at your regular dealer or in our website.

1Wettability is the ability of the filler metal to spread over the surface being processed.
