HRT electric soldering iron Cat. No. 309

Reference: 309

Price: 119,97 € Excl. Tax 143,96 € Incl. Tax

Description

The Express High Thermal Output soldering iron patented technology offers a heating power/consumption power ratio significantly higher than that of a conventional soldering iron.

Fast and energy efficient, the resistance of this soldering iron is hardened for intensive use. Particularly, this soldering iron can be used for any type of tin welding.

Finally, the iron bit of this soldering iron is removable and treated for long life.

Its electrical cord is fire-resistant.

This product is available for sale online and can be delivered within 72 hours of receipt of your payment.
