Piezo blowlamp 351

Reference: 351

Price: 88,82 € Excl. Tax 106,58 € Incl. Tax

Description

Propane gas plumber torch: Express Piezo blowlamp 351 outperforms a butane soldering torch

This ultra-powerful plumber torch produces a flame temperature of more than 2000°C or 3632 °F.

More powerful than a conventional butane soldering torch, the Guilbert Express Piezo 351 propane gas torch has piezo ignition and operates on a mixture of pentane, butane and propane gas - see gas cartridge Ref. 2015.

Its 15 second return in function makes this propylene propane torch one of the "Best" in the plumber torch family.

It should be noted that with its new all-recyclable cardboard packaging, nearly 1,000 tonnes of plastic material have been saved.

This reference can be delivered within 72 hours of receipt of your payment.
