Roofer hoseless soldering iron metal case set 6364

Reference: 6364

Price: 348,83 € Excl. Tax 418,60 € Incl. Tax

Description

The roofer hoseless soldering iron metal case set includes the new roofer soldering iron.

This roofer soldering iron is very quiet and its piezo ignition allows immediate utilisation in all positions, with a tip that is orientable through 360° and can be angled $\pm 5^\circ$.

Suitable for zinc, copper, stainless steel, zinc with patina, lead.

Operates for 70 minutes between refills, and that's a lot of soldering, with this roofing soldering iron!

Its manufacturing quality and its turbo tip, specifically for severe conditions (wind, rain, cold) allow it to be used in difficult winter weather conditions, which is also the case for many other products in the Guilbert Express roofer torches range.

This reference is sold online and can be delivered within 72 hours of receipt of payment.
