Reference: 60278

Price: 178,49 € Excl. Tax 214,19 € Incl. Tax

Description

Butane gas powered soldering iron kit (Ref. 60278) for professional roofers.

The 60278 butane gas powered soldering iron kit by Guilbert Express has been created to meet the requirements of professional roofers.

It comprises a burner with tip (ref. 4678) and a handle with swivel fitting (ref. 602, 3/8" left hand), which prevents the hose from coiling while in use.

The burners in this butane gas powered soldering iron kit are suitable for working with a variety of materials, including zinc, copper, stainless steel, pre-patinised zinc and lead.

Simple and efficient to use, the 60278 butane gas powered soldering iron kit is sure to become an indispensable item for all roofing professionals.

This reference can be returned to you within 72 hours of receipt of your payment.
