#### **Description**

Mini Roofer Stainless Express – The compact and powerful roof waterproofing tool  
The Mini Roofer Stainless Express (Cat. No. 6050SL70) is a professional-grade tool developed by Guilbert Express for roofers and waterproofing specialists working with bituminous membranes. Designed to be compact, lightweight, and durable, it combines power, safety, and ease of use, making it the perfect tool for upstands, edges, and finishing work.

Stainless steel burner – Ø50 mm, 50 kW power

This mini roofer features a stainless steel Ø50 mm burner with an impressive 50 kW heating capacity, ensuring fast temperature rise and consistent performance. Its stable torch flame delivers reliable efficiency, even in windy outdoor conditions, helping roofers

save valuable time on site.

#### Ergonomic handle for professional use

Equipped with a progressive trigger plastic handle, the Mini Roofer Stainless Express provides precise flame and gas flow control. Its ergonomic, compact design and low weight (755 g) reduce fatigue during long working sessions, while ensuring smooth maneuverability and maximum comfort for professional roofers.

#### Safety and reliability on the job

Safety is a top priority: the integrated deflector protects the operator's hand against potential flame kickbacks and allows the tool to be set down safely between uses. For maximum protection, gloves designed for propane gas applications are still recommended. The fixed 3/8" left-hand gas connection guarantees a strong and durable link with all Express equipment.

#### Why choose the Mini Roofer Stainless Express?

High-performance stainless steel burner Ø50 mm – 50 kW

Lightweight and ergonomic design (755 g)

Progressive trigger for precise flame control

Integrated safety deflector

Reliable 3/8" LH fixed gas connection

Ideal for roof waterproofing, bituminous membrane finishing, and upstands

Available for online purchase, the Mini Roofer Stainless Express can be delivered directly to your company or job site within 72 hours of payment.
