Tempo electric soldering iron 25 W

Reference: 29

Price: 34,85 € Excl. Tax 41,82 € Incl. Tax

Description

Guilbert Express Tempo 25W electric soldering iron can be termed an ecological soldering iron, delivering the performance of a traditional 25W soldering iron, yet rated at only 19W resistance. Ready in around 1 minute, the Tempo 25W electric soldering iron is ideal for quick soldering jobs.

This Tempo electric soldering iron (ref. 29) also offers an integrated collar and ergonomic handle for optimal grip. It is also very compact and particularly light, making it as easy to use as a cordless soldering iron.

As part of the Tempo product line, the benchmark 25W electric soldering iron is guaranteed for 2 years.

Particular attention has been paid to the selling price of this product line. Simply visit your distributor to check the price of similarly performing products and you will immediately see how well the Tempo soldering iron compares!

Naturally, all Tempo electric soldering iron models are made in France.

This reference is available and can be delivered to you within 72 hours of receipt of your payment.
