Description

To simplify the roofer's job and all those who wish to professionally execute the roofing job, Guilbert Express invented roofing packs allowing all to have a roofing torch "in their battle gear".

This "special sills/ledges" Pack consists of a Titan burner Cat. No.150T, a neck tube Ref. L200, a metal handle Ref. 640 with swivel attachment as well as a 10 meter hose Cat. No. 963/10 and a 4 bar HP regulator Cat. No. 684.

The set results in a roofer torch which simply attracts the attention of professional roofers who must work in the "field" and who wish to have more power over smaller-scale productions.
